FOR IMMEDIATE RELEASE

Cottage Village Apartments

Manteca, CA (August 2020) - The Housing Authority County of San Joaquin (HACSJ), in a partnership with DFA Development, has provided 48 units of affordable housing for income eligible seniors in Manteca, CA.

This project was made possible by funding from the City of Manteca, San Joaquin County, Low Income Housing Tax Credits (LIHTC), and permanent financing. These units will receive Housing Choice Project-Based Vouchers rental subsidies.

DFA Cottage Village Associates LP, the project sponsors and our partners, “[believe that the project will enable a significant group of local seniors to continue residence in Manteca and that the proposed plan will create a welcoming and comfortable community](#)”. The site has been built with foresight, to create ground level units to allow for full accessibility for senior and disabled senior residents.
